

Handout 3.4.1: Landscape Visioning Process and Elements

Landscape Visioning Planning Process

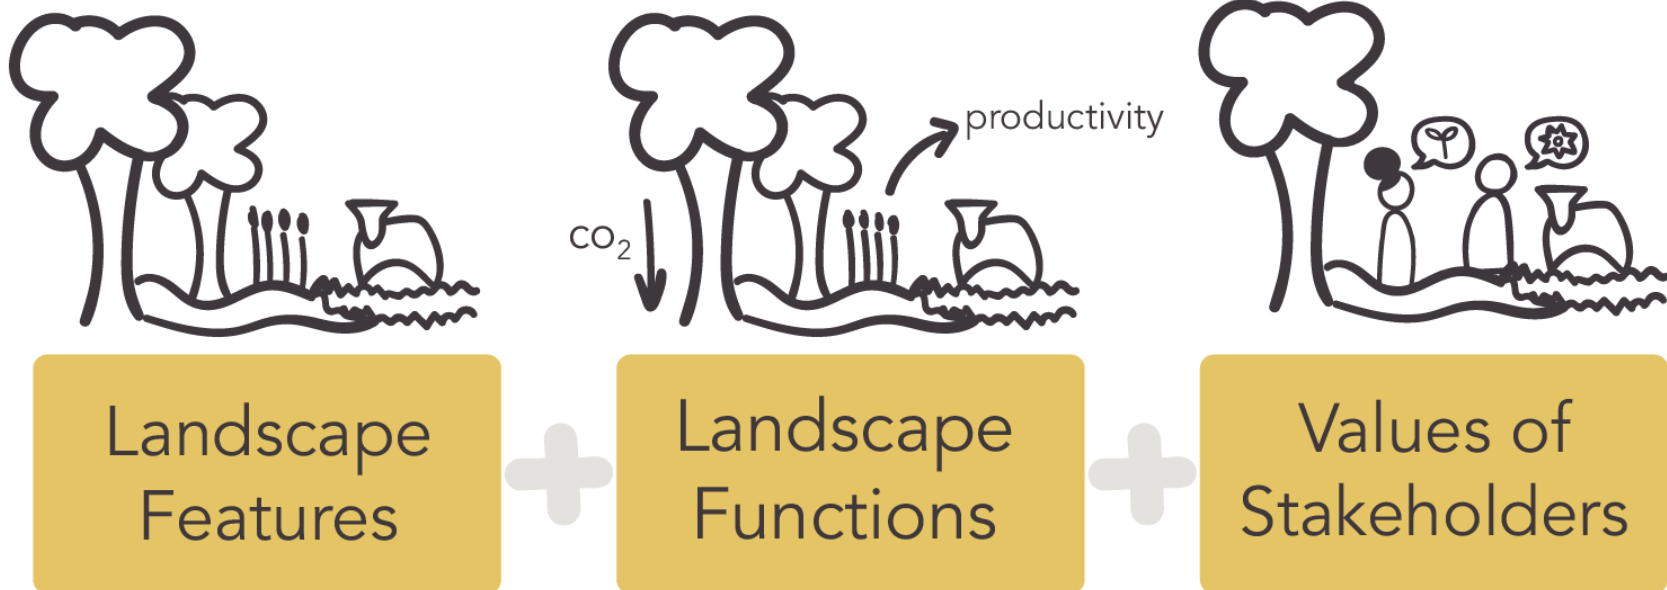

USAID
FROM THE AMERICAN PEOPLE

IITA
Transforming African Agriculture

Key Elements of a CSA Landscape Vision

For example:

- *CSA practices in farms across landscape*
- *Vegetated hilltops*
- *Diverse land uses and vegetation types*
- *Vegetation connectivity*
- *Permanent clean water flows*

For example:

- *Builds resilience of agriculture systems*
- *Limits ecological risk*
- *Sustains perennial habitat as carbon stocks*
- *Sustains productivity*
- *Provides strategic food and feed reserves*
- *Limits GHG emissions*

For example:

- *Secure livelihoods and adequate nutrition for all*
- *Fairness in land rights allocation*
- *Retaining youth in farming*
- *Opportunity to profit from farming*
- *Ensuring opportunities in agriculture for future generations*
- *Protecting nature and natural resources*
